Praedo Website/App Design

Date:
Fall 2011

Medium:
Adobe Photoshop, Adobe Illustrator

Type:
Team Design & Development Project

Project:
Re-design the current Praedo website and Testing LMS.

The client has a 2013 January launch of their entire system. So I had to keep the current site design in line with their current web properties, but freshing up the look and feel to convey the underlying rewrite we were doing for their system.

Formats:
1. Praedo Website
2. Testing Learning Management System
